PROJECTS

Quiz App
- It is a simple Quiz App that pulls questions from Firebase Realtime Database. Firebase makes it easy to update questions on-the-fly without needing to update the app.

CryptoCurrency App
- Developed a robust Cryptocurrency Information App that provides real-time details of various cryptocurrencies using the CoinMarketCap API.

Fruits Detection
- It is a basic Machine Learning Project but the catch is its deployed on a micro-controller. Transfer Learningis used to implement the model

E-Commerce (ongoing)
- It is a web development project.The Technologies used here is MERN stack.
